Community Weatherization Coalition Home Energy Tune-Up Application

Dear Resident:

Community Weatherization Coalition (CWC) volunteers perform *free* energy tune-ups for local households. An energy/water tune-up helps identify ways that you can reduce your utility costs. Volunteers may be able to help reduce your energy and water consumption through minor upgrades and advice. Most volunteers are not professional energy auditors, but have gone through training with the CWC before performing an energy tune-up. A successful tune-up along with simple changes at your home can *save as much as 20% on your utility bill*. **All services will be completed free of charge.** We want you as a partner in this process, and ask that you and/or any able-bodied members of your household participate alongside our volunteer energy coaches throughout.

Please note: All energy tune-ups must be pre-approved by the resident.
