w: [communityweatherization.org](http://communityweatherization.org) o: (352) 450-4965

The Community Weatherization Coalition (CWC) helps Alachua County renters and homeowners reduce their monthly utility bills and save resources by providing free supplies and instruction to perform "Do it Yourself" (DIY) Home Energy Tune-ups.

Performing your own CWC Energy Tune-up includes an initial consultation and utility bill review with a CWC staff member prior to the inspection of your home. During the inspection, you'll simply follow the checklist to examine major appliances and install the energy and water saving items provided in your kit, including LED light bulbs and water-saving shower heads.

Mail or drop off completed applications to the CWC: **633 NW 8<sup>th</sup> Avenue, Suite B, Gainesville, FL 32601**

Read each statement and check the box if you agree to the following:

- I live in Alachua County, FL
- I understand that my DIY tune-up may take 2-3 hours to complete in full, but I may complete it in sections.
- I understand that initial kit check-out is for up to ONE WEEK, and I will do my best to return my kit in a timely manner so that it can be used to help another local household.
- I agree to review the checklist carefully and return the supplies and tools listed in safe and working order.
- I understand that CWC kit availability may be limited at times. CWC staff will contact me within one week of submission of this form to communicate the next steps.
- I will share a recent utility bill with CWC to review my usage in advance of my DIY tune-up.
- I understand CWC representatives will not be present in my home for the DIY tune-up and are not responsible for anything broken during my tune-up, and that they will do their best to provide me with proper safety recommendations, videos, and diagrams.
- If there is any task on the checklist that I am uncomfortable doing, I will not perform the task.
